

Daniel ALQUIER - CV

Pr. Daniel Alquier has more than 25 years' experience in micro-and nano-electronics. He is working on wide band semiconductors (SiC / GaN) for power devices and applications. He has worked or led for GREMAN (Tours University/CNRS) more than 30 research projects (at Europe, national (ANR, PIA) or regional levels).

He has also a long experience of research management both in projects or as former lab director and research vice-president.

He is author or co-author of more than 150 papers in international journals, 20 invited talks in international conferences and 7 patents.
