

Michele BOTTONI – CV

Graduated in Economics and Master in Business Administration with focus in leading across borders and cultures, Michele Bottoni is a dynamic and results-oriented executive with extensive experience in marketing, communication, and commercial management. He is currently serving as the President of the Q-RAD Consortium, composed of manufacturers and other companies related to the sector of radiant systems, as well as research institutions and associations. As General Manager of Eurotherm SPA, he has large experience in leading initiatives that strengthen organizational communication and foster relationships with key stakeholders, driving growth and supporting energy transition efforts.
