

## **CV Fabiola Brusciotti**

Fabiola Brusciotti has a Doctoral degree in Engineering Science from Columbia University of the city New York, in the department of Environmental Engineering. After working in different universities in Europe and specializing in coatings development for corrosion protection and other properties, she joined the Surface Engineering group at Tecnia in 2012, dealing with coatings and modification of surfaces with different functionalities (corrosion protection, anti-fouling, hydrophobic surfaces...) for various sectors of application, such as aerospace, automotive, marine structures, glass, among others.
