

Emanuele CORSI - CV

Education: Master's degree in Mechanical Engineering at Politecnico di Torino (1999).

Working Experience: I joined MEMC GlobalWafers in 2000 as Junior Process Engineer and after several experience in different Production areas and with different technical roles (Engineering, R&D, Project Management), I am currently appointed to the role of R&D and Process Engineering Manager for MEMC GlobalWafers Novara Plant, covering from Slicing to EPI Deposition, thru Lapping, Polishing and Cleaning operations. Within the 300mm Expansion Project (Tenet), my role is Tool Owner (aka Project Manager) for the Polishing Area and Supervisor of Process and Products qualifications.
