

## **Valeria D'ANNIBALE – CV**

Valeria D'Annibale, born in Rome on 20/02/1994, studied Chemistry at Sapienza University of Rome and obtained her master degree in Physical Chemistry in January 2020. She is now PhD student at Department of Basic and Applied Sciences for Engineering, in Mathematical Models for Engineering, Electromagnetism and Nanosciences - curriculum Material Science (cycle XXXVII) - and her main research is about the design of new porphyrin-based molecules, for understanding and modelling their aggregation behaviour, in order to define the application of new materials in the sensor and medical field.
