

Biography Eleonora D'Intino

I am a PhD Student in Pharmaceutical Sciences at Sapienza, University of Rome where I earned a Master Degree in Pharmacy in 2023. My master experimental thesis, titled “Niosomes for the delivery of active substances in the treatment of endovesical bacterial infections”, was completed during this time under the supervision of Prof. Maria Carafa.

Currently, I am conducting my PhD research under the supervision of Prof. Carlotta Marianecci. My research focuses on nanotechnology for drug delivery and stimuli-responsive nanocarriers for anticancer drug.
