

Francesco DELLA CORTE - CV

Francesco G. Della Corte received the Laurea degree in electronic engineering from the University of Napoli, Naples, Italy. He was a researcher with Consiglio Nazionale delle Ricerche – Institute for Microelectronics and Micorsystema, and then a full professor of electronics with the Mediterranea University of Reggio Calabria, Italy. From 2021 he is now a full professor of electronics with the University of Napoli Federico II, Italy. His current research interests include integrated silicon photonics, temperature sensors, wide bandgap semiconductor device modeling for high temperature and high power applications.
