

Luciana DINI - CV

Luciana Dini is a cell biologist at the Sapienza University of Rome, Italy, where she is Full Professor of Cell Biology and Nanobiotechnology. Her research focuses on the isolation, characterisation and role of extracellular vesicles in differentiation, cancer and metabolic disorders. Her research is connaturata to an interdisciplinary approach based on electronic, tomographic and optical imaging, correlative microscopy, histochemical and molecular biology tools.

Her publication list can be found here: [ORCID](#)

She is President of the Italian Society GEI-SIBSC.
