

Dalila FONTANA - CV

Dalila earned her MS degree in Biomedical Engineering from Università Campus Bio-Medico di Roma (2022) and she worked as a research fellow at the Institute for Photonics and Nanotechnology of the National Research Council (CNR-IFN). She is currently enrolled in the PhD program in Bioengineering, Applied Sciences and Intelligent Systems at Università Campus Bio-Medico di Roma. Her research interests are in surface modification and actuation of stimuli-responsive 3D microstructures obtained with direct laser writing technologies, including two-photon lithography.
