

## **Giulia Gianola**

### **Biography**

Giulia Gianola is a PhD candidate at the Politecnico di Torino, currently enrolled in the Department of Applied Science and Technology (DISAT) and working for the Istituto Italiano di Tecnologia – Center for Sustainable Future Technologies. She holds a Bachelor's degree in Physical Engineering and a Master's in Nanotechnologies for ICTs from Politecnico di Torino. Giulia's research is centered on the development and characterization of PGM-free catalysts for the oxygen reduction reaction (ORR) in fuel cells, aimed at enhancing their efficiency and sustainability.
