

Ambra GIOVANNELLI - CV

Ambra Giovannelli is Associate Professor of Fluid Machinery at the University of Roma Tre. Since 2005, she has been involved in several national and international projects on developing turbomachines for novel applications, being the PI of some of them. She has authored 56 indexed publications (articles and conference proceedings) on innovative Energy Systems and Fluid Machinery. She received two awards (in 2017 and 2020) for best presentation at International Conferences, and she is involved in various international associations in the energy fields (e.g. IEC, ISES, ETN, ASME).
