

Radenka KRSMANOVIC WHIFFEN – CV

Dr Radenka Krsmanović Whiffen is the Science Officer at the COST Association - European Cooperation in Science and Technology based in Brussels. She is a former MSCA Individual Fellow at the ENEA Casaccia Research Centre, in Rome, Italy where she worked on her project developing ceramics for pyroelectric energy harvesting. She obtained a PhD from the Department of Physics of the University of Antwerp, Belgium in 2006, for her work on luminescent nanomaterials and novel glass ceramics, and subsequently worked in the field of Materials Science, Nanotechnology and Applied Physics in Italy, France, Serbia and Portugal. Her current role focuses on enhancing scientific cooperation and building networking capacities across the European research space.
