

**Matteo PALLUZZI\_CV**

Matteo Palluzzi is a PhD student at Sapienza University of Rome. His research focuses on the greener synthesis and application of ionic liquids and their derivatives, such as deep eutectic solvents, as battery materials. He spent six months at Chalmers University in Göteborg. He has published six peer-reviewed papers in scientific journals, being the first author of three of them, and has presented his work at nine scientific conferences, delivering oral presentations at five of them.
