

## **Marco Ranaldi – CV**

Marco Ranaldi is a Ph.D student in Biomedical Sciences and Technologies at University of Roma Tre. In October 2023 he completed his Master's degree in Chemistry at "La Sapienza" University of Rome with an experimental thesis on the Synthesis and Characterization of Gold Nanoparticles for Optoelectronic Applications. His research is focused on the development of innovative theragnostic techniques in nuclear medicine, based on gold nanorods like drugs delivery systems.
