

## **Lorenzo Augusto ROCCHI – CV**

Lorenzo Augusto Rocchi is PhD student in the LAMP group of the Department of Chemistry at the University of Rome la Sapienza. In October 2021, he completed his Master's degree in Industrial Chemistry with honours, specializing in Polymeric Materials. His research focuses on the calorimetric and spectroscopic characterization of polymeric glass formers. As a visiting student, Lorenzo Augusto spent eight months in 2023 and three months in 2021 with the soft matter group at the Centro de Física de Materiales (CFM) in San Sebastian, Spain.
