

## **Alex SANGIORGI – CV**

Alex Sangiorgi gained its PhD in Material Science at Parma University in 2018. Since 2017 he is a Technologist at the Institute of Science, Technology and Sustainability for Ceramics (CNR-ISSMC) in Faenza (RA). His expertise is mainly linked to the optimization of different shaping processes for thick and thin films and components for the energy sector. In particular, he has gained extensive experience on innovative photovoltaic technologies, such as dye-sensitized solar cells. He is author/co-author of more than 20 papers with an h-index of 10 and more than 300 citations (Scopus source).
