

# DAY 2 - September 12

Life Sciences	Time	Materials Science
<p>Keynote Speaker - Calogero FIORICA</p> <p>"Development and characterization of polymeric biomaterials for regenerative medicine application"</p>	9.00 - 10.30	<p>Keynote Speaker - Giuseppe VITIELLO</p> <p>"Amphiphiles functionalized colloidal metal-oxide nanoparticles: from design to technological applications"</p>
<p>Keynote Speaker - Alice GUALERZI</p> <p>"Interdisciplinary Aspects in Nanomedicine"</p>	11.30 - 13.00	<p>Keynote Speaker - Pietro CATALDI</p> <p>"Multifunctional and Sustainable hybrid and nanocomposite materials for electronics, sensors and energy"</p>
<p>Keynote Speaker - Luigi CALZOLAI</p> <p>"Characterization and preclinical testing of nanomedicines"</p>	14.00 - 15.30	<p>Keynote Speaker - Giacomo BERGAMINI</p> <p>"Photoactive materials and techniques for energy conversion"</p>
<p>Keynote Speaker - Francesco PASQUALINI</p> <p>"Genetically engineered cell lines to characterize cell-material interactions on engineered substrates"</p>	16.00 - 17.30	<p>Keynote Speaker - Giuseppina LUCIANI</p> <p>"Nanocatalysts for sustainable energy and environment"</p>
